

Personal Care **PRODUCT PORTFOLIO**

what is precious to you?

Envisioning Beauty

In a rapidly changing world, product requirements and consumer needs are constantly shifting, which increases the demands on each and every one of us. This includes the demands placed on companies and brands.

Instead of reacting quickly, we need to be the fastest. Instead of being generalists, we must aim for being specialists. Instead of staying reactivists, we must become proactivists. Instead of guessing, we must be envisioning.

This is where we come in to support YOU. Because even if beauty lies in the eye of the beholder, its origin always lies in the inspiration – and in formulating the right questions:

Can beauty be experienced?

Can beauty be promised?

Can beauty be preserved?

Can beauty be purely natural?

Can beauty be activated?

What are the trends that will shape a new kind of beauty?

We're looking ahead – to bring you ahead.

Sensorial Effects: ENVISIONING ALL ASPECTS OF YOUR SENSES

Overview

We offer everything from mild cleansing solutions to the most innovative sensorial experiences. We provide the best sensorial cleansing technologies, innovative and transformative textures, combinations of different sensorial profiles and natural alternatives for creating appealing and robust personal care products. This cluster of innovative technologies comprises: GlucoTain®, Aristoflex®, Plantasens®, Perlogen®.

Ambition

Envisioning all aspects of your senses is about creating appealing formulations pleasing every facet of the five senses. We are always envisioning and working to enhance the holistic consumer experience with personal care products, via the most trendy and surprising formulation concepts and outstanding technologies, such as new polymer structures, encapsulation, plant-based cleansers and sustainable solutions.

PRODUCT GROUP	HIGHLIGHTED TECHNOLOGIES	BENEFITS
Mild surfactants	GlucoTain® range Isethionates range Taurates range	Sugar-based sensorial surfactant Sensorial effects and formulation flexibility Easy-to-use mild surfactants
Rheology modifiers	Aristoflex® range	Outstanding and functional sensorial experience
Emulsifiers	Hostacerin® natural range Plantasens® emulsifiers	Natural sensorial diversity combined with performance
Emollients	Plantasens® range	Sensorial effects and textures from nature
Pearlizers	Perlogen® range	Visually pleasing sparkling effects

Highlight Products

SENSORIALS

MILD SURFACTANTS

Glucotain® Care

FEEL THE PLEASURE OF INDULGENCE

Cocoyl Methyl Glucamide

MILD SURFACTANT

NATURALS GREEN PERFORMER

DESCRIPTION

Mild surfactant with good hair and skin cleansing ability providing a pleasant and gentle conditioning effect

KEY BENEFITS

COSMOS-approved, enhanced skin feel, foam stability, sulfate-free

APPLICATIONS

Shampoo, shower, liq. soap

ISO 16128

Aristoflex® AVC

OUTSTANDING SENSORIAL VERSATILITY

Ammonium Acryloyldimethyltaurate/VP Copolymer

RHEOLOGY MODIFIER

REGISTERED
IN CHINA

DESCRIPTION

Multi-purpose rheology modifier (pre-neutralized) with excellent sensorial benefits, ideal for cream gels and aftershave products with melting textures, application e.g. in sun care and men's care

KEY BENEFITS

Cold-processable, emolliency/improved spreading, enhanced skin feel, EO-free

APPLICATIONS

Hair styling Cream, lotion Color cosmetic

Plantasens® Flash 100
LIGHTWEIGHT EMOLLIENT WITH A SATINY AFTER-FEEL AND A MEDIUM TO LONG PLAYTIME
Tridecane (and) Pentadecane

EMOLLIENT
NATURALS GREEN PERFORMER

DESCRIPTION
With Plantasens® Flash, Clariant introduces a new technology for making cosmetic ingredients that enables the creation of extraordinary textures from natural materials.

KEY BENEFITS
Lightweight emollient combining fast spreading with smooth and cozy after feel. Replaces emollients like D5 and isohexadecane. Provides medium to long playtime, luminous but not glossy film and highly enjoyable finish

APPLICATIONS

Functional Claims

ENVISIONING THE NEXT BENEFIT

Overview

In this cluster, we offer both the traditional and the newest claims and benefits our technologies can offer to consumers. It comprises a broad spectrum of innovative products, from conditioning agents and sunscreens to anti-dandruff and hair repair solutions.. We focus on delivering superior technologies to provide even better and visible benefits to consumers. This cluster of innovative technologies comprises: Genadvance®, Eclipsogen®, NeutroTain™, Octopirox®.

Ambition

Envisioning the next benefit is about developing outstanding product features made for emerging customer needs. We are not just responding to the latest market trends and needs but envision the next benefit ahead, emerging from new consumer or indie brands. We are committed to developing more efficient technologies to fulfill sophisticated consumer needs in hair and skin care, like improved protection, enhanced performance and better conditioning and boosting.

PRODUCT GROUP	HIGHLIGHTED TECHNOLOGIES	BENEFITS
Hair conditioning agents	Genadvance® range Genamin® range	New customized solutions for hair conditioning Traditional hair conditioning efficacy
Anti-dandruffs	Octopirox®	Next level of anti-dandruff technology
Antiperspirants	Drygen®	Efficient AP protection
Insect repellent	DEET	Efficient protection
Neutralizer	NeutroTain™	The sustainable & safe neutralizing agent
UV filters	Eclipsogen® range	Versatile and broad-spectrum protection

FUNCTIONAL CLAIMS

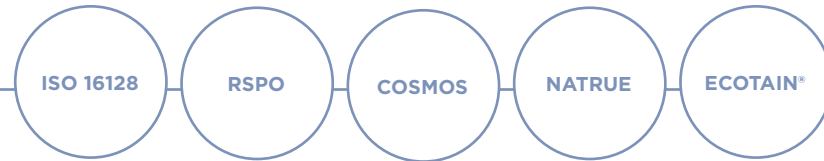

Genadvance® Hydra

100% NATURAL HAIR CONDITIONER AND MOISTURIZER

Lauryl/Myristyl Polyricinoleate (and) Glycerin

HAIR CONDITIONING AGENT

NATURALS GREEN PERFORMER

DESCRIPTION

Genadvance® Hydra is one of Clariant's most nature-friendly hair care ingredients, COSMOS-approved by ECOCERT® and developed for consumers looking to repair hair's everyday wear and tear. Coming from a family of natural moisturizers, it delivers a great after feel on dry hair. The hair feels moisturized and manageable. Because of its properties, it can be also used in products for children.

KEY BENEFITS

100% naturally derived, biodegradable in 10 days, superior conditioning for silicone-free, smooth after feel

APPLICATIONS

Shampoo, shower, liq. soap | Hair conditioner | Cream, lotion

Genadvance® Life

BOOSTING HAIR VITALITY

Polyquaternium-116 (and) Butylene Glycol

HAIR CONDITIONING AGENT

NATURALS GREEN PERFORMER

DESCRIPTION

Genadvance® Life brings life back to hair. It is particularly efficient for thin and limp hair, delivering volume, shine and a breath of new life to the hair. It will not make hair frizzy, can be used in many hair care formats, especially in silicone-free products, and it is very eco-friendly.

KEY BENEFITS

Reduces hair frizz, boosts hair volume, increases hair gloss, low aquatic toxicity

Genadvance® Repair

ENHANCING HAIR STRENGTH

Quaternium-98

HAIR CONDITIONING AGENT

NATURALS GREEN PERFORMER

DESCRIPTION

Genadvance® Repair does what its name promises, making very damaged hair sleek, smooth and healthy again. It also prevents further damage much better than current damage-protecting ingredients. Genadvance® Repair is probably the most weight-efficient ingredient in its class and thus very economic to use.

KEY BENEFITS

Better dry smoothness, repairs damaged hair, improves dry detangling, cost optimization

Preservation

ENVISIONING A SAFE AND EFFECTIVE PATH

Overview

The solutions in this cluster range from traditional preservative ingredients to the most sophisticated preservation boosting solutions. We offer safe, highly efficient and tested preservation concepts for a broad spectrum of formulation conditions and challenges. This cluster of innovative technologies comprises: Velsan® SC, Nipaguard® Zero range, JM® ActiCare

Ambition

Envisioning a safe and effective path is about exceeding expectations of the ever-changing needs of safe preservation. We are moving with the regulatory changes in our industry and new scientific protocols to ensure product protection and consumer safety. We are committed to providing the industry with holistic preservation systems, preservation boosting solutions and efficient natural alternatives. Our focus areas are: natural preservation systems, multifunctional preservation and boosting solutions.

PRODUCT GROUP	HIGHLIGHTED TECHNOLOGIES	BENEFITS
Preservatives	Nipaguard® Zero range	New paraben alternatives that provide comparable cost and performance
	Nipaguard® PO range	Broad-spectrum efficacy over a wide pH range
	JM ActiCare™	Silver preservation technology with a broad and long-lasting efficacy
Boosters	Velsan® SC	100% renewable and natural derived preservation booster
	Velsan® AS	Multifunctional preservation booster suitable for natural formulations

Naturals

ENVISIONING A CALL FOR NATURE

Overview

Clariant Naturals provides a new platform that makes it easier for manufacturers to find the natural ingredients they need and label their products. The platform bases its definition of »natural« on ISO 16128, a straightforward, internationally agreed standard that uses the widely accepted RCI as its main metric. While taking this well-established ISO norm as its basic framework, Clariant goes beyond mere RCI calculation by investing in responsibly sourced solutions and developing green high-performance alternatives. They constitute the two pillars that the Naturals platform rests on: Origins and Green Performers.

Ambition

Clariant Naturals offers a highly focused and forward-looking platform that so far consists of nearly 130 natural and derived natural ingredients according to the ISO standard. Powerfully addressing today's key purchase drivers, it is our ambition to provide customers with attractive options for developing sustainably performing and responsibly sourced natural formulations with high RCIs and superior consumer appeal.

Origins

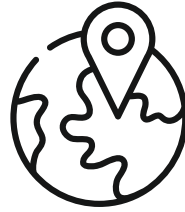

The offering of the Plantasens® brand (around 80 products) includes 100% natural oils, butters, serums and extracts from Brazil, Africa, the Mediterranean, Indonesia and Australia, and is constantly expanded with other captivating ingredients from new locations.

Green Performers

Our range of more than 50 Green Performers offers a viable alternative for every formulation need. Mostly made of 100% renewable carbon or only slightly less, these natural emulsifiers, emollients, conditioners, preservation boosters and bio-based surfactants provide highly effective alternatives to silicones, sulfates and other publicly criticized substances.

Clariant Naturals: Origins DISCOVER A NEW WORLD OF THRILLING NATURAL TREASURES

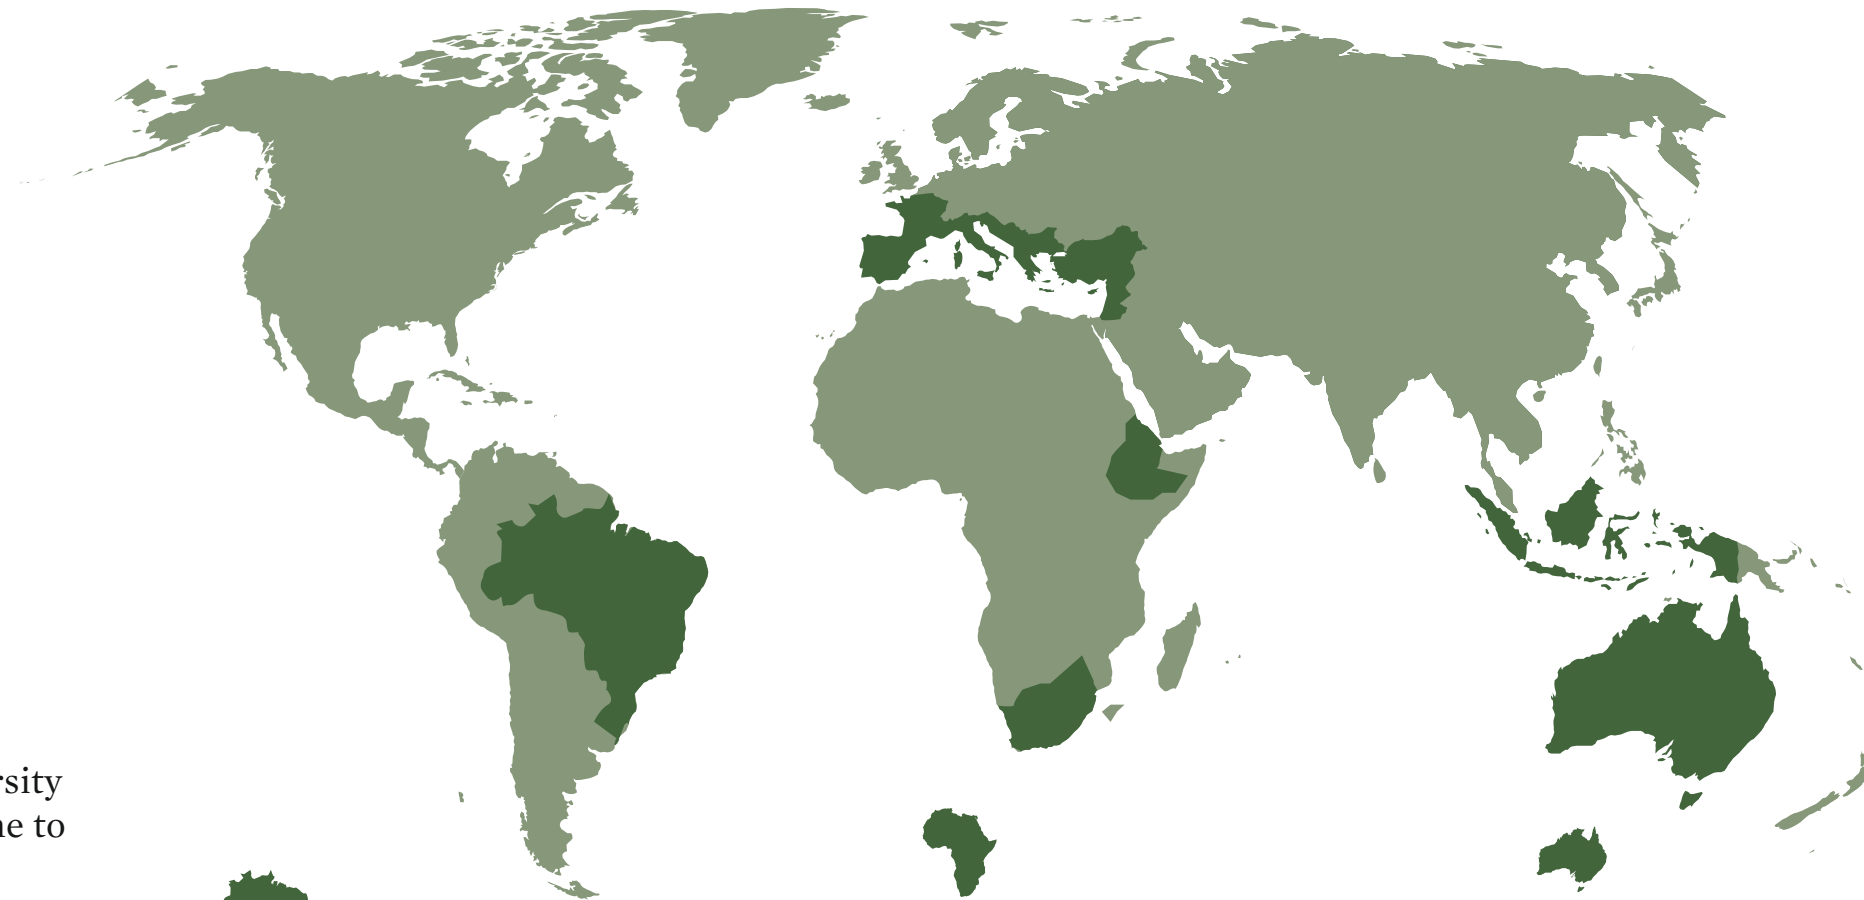

Globalized communication may foster the impression there's nothing new under the sun. But especially in the world of cosmetically valuable natural oils and extracts, that's far from true.

As one of the main pillars of the Naturals platform, Origins celebrates both the wealth of global biodiversity and the magic of local roots. It uses Clariant's extensive worldwide network of local partners to provide access to a whole new world of exotic biomes and age-old plant knowledge, complemented by transparent sourcing, responsible cultivation, and fascinating narratives.

Sold under Clariant's acclaimed Plantasens® brand, the offering includes 100% natural oils, butters, serums and extracts from Brazil, Africa, the Mediterranean, Indonesia and Australia, and is constantly expanded with other captivating ingredients from new locations. Origins combines caring for the world with providing good care for skin and hair – and carries the product-enhancing allure of distant soils, stories and horizons.

»We should preserve every scrap of biodiversity as priceless while we learn to use it and come to understand what it means to humanity.«

Edward O. Wilson, *The Diversity of Life*

Product overview: Origins WORLD-CLASS CARE WITH A LOCAL STORY

MEDITERRANEAN

Olives, grapes, almonds and peaches – all the delicious foods that come from this ancient region of healthy naturals also make excellent cosmetic ingredients. Under the Plantasens® brand, our Origins platform offers a wide range of natural treasures from Europe's most cherished biome.

- Plantasens® Apricot Butter
- Plantasens® Camelina Serum
- Plantasens® Cottonseed Oil
- Plantasens® Grape Serum
- Plantasens® Grapeseed Oil & Butter
- Plantasens® Olive Butter
- Plantasens® Olive Squalane
- Plantasens® Olive Squalene
- Plantasens® Sweet Almond Oil & Butter
- Plantasens® Peach Butter

INDONESIA

Our collaboration with local cosmetic manufacturer and herbal expert Martina Berto gives us a strong connection to South East Asia's bountiful biodiversity and precious plant wisdom – made even more valuable by the brand's partnerships with local farmers and commitment to sustainable cultivation practices.

- Plantasens® Berto SteenoBright

BRAZIL

Through a strategic alliance with Beraca, Clariant has access to this leading provider's natural and organic ingredients from Brazil's highly diverse biomes, including the Amazon rainforest.

AFRICA

Our Abyssinian Oil is a cold-pressed, responsibly sourced native of the sunny windswept African highlands whose light, nourishing qualities make it an exciting addition to such prized emollients as shea butter and argan oil – which we also source from the biome-rich cradle of humanity.

- Plantasens® Abyssinian Oil & Serum
- Plantasens® Argan Oil & Butter
- Plantasens® Cocoa Butter
- Plantasens® Shea Butter

AUSTRALIA

In the Macadamia's native Australia, the subtle-tasting queen of nuts flowers in summer and ripens during winter. Rich in fatty acids, vitamins and essential elements, its oil makes a »crikey« good cosmetic ingredient.

- Plantasens® Macadamia Oil

Clariant Naturals: Green Performers ENTER THE GREEN UNIVERSE OF NATURAL HIGH PERFORMERS

While Origins gives access to the world's ancient natural heritage, our Green Performers provide a powerful antidote to the myth that natural means less sophisticated in terms of function.

This old misconception is something that our range of more than 50 Green Performers has long grown out of. Mostly made of 100% renewable carbon or only slightly less, these natural emulsifiers, emollients, conditioners, preservation boosters and bio-based surfactants provide highly effective alternatives to silicones, sulfates and other publicly criticized substances.

The Green Performers range offers substantiated sustainable technologies for key building blocks of cosmetic formulations. Our ambition is to continue developing and expanding these green technologies so formulators can create cosmetics with even higher RCIs – and no compromise in performance.

Product overview: Green Performers A SUSTAINABLE SUBSTITUTE FOR EVERY FUNCTION

This part of the the Naturals platform includes many ingredients whose green performance our customers already know and value, and – like Origins – is constantly expanded with new additions. It is also similar to its more biome-focused companion in its strong ambition to complement its offering with additional sustainability benefits, such as superior biodegradability or improved environmental footprint.

Genadvance® Hydra

100% NATURAL HAIR CONDITIONER AND MOISTURIZER

Lauryl/Myristyl Polyricinoleate (and) Glycerin

NATURALS GREEN PERFORMER

HAIR CONDITIONER

DESCRIPTION

Genadvance® Hydra is one of Clariant's most nature-friendly hair care ingredients, COSMOS-approved by ECOCERT and developed for consumers looking to repair their hair's everyday wear and tear. Coming from a family of natural moisturizers, it delivers a great after feel on dry hair. The hair feels moisturized and manageable. Because of its properties, it can be also used in products for children.

KEY BENEFITS

100% naturally derived, biodegradable in 10 days, superior conditioning for silicone-free, smooth after feel

APPLICATIONS

Shampoo, shower, liq. soap | **Hair conditioner** | Cream, lotion
